

September Program: Impact of Design-Build for Infrastructure Improvement Projects

Infrastructure supports our daily lives. From the roads we drive on to the water we drink, and from the bridges we cross to the toilets we...you get the point. Infrastructure is critical to all facets of our life, and design-build continues to gain momentum in the infrastructure space as a proven delivery method to shave time off the schedule and keep costs within budget. Join us for breakfast on Wednesday, September 12 as the following infrastructure leaders from communities across the metro discuss design-build in the infrastructure market:

Panelists:

Steve Hansen
Former City of Liberty Public Works Director, Currently Design-Build Advisor
Emery Sapp & Sons

Doug Whitacre
Public Works Director
City of Shawnee

Brian Hess
Director of Utilities
City of Liberty

Matt Bond
Chief of Engineering
KC Water
