WATER DESIGN-BUILD COUNCIL
AN ASSOCIATION OF LEADING DESIGN BUILDERS

Who Should Attend

This one-day inclusive education and training session for city and county officials; managers and staff of municipal, private, and governmental organizations; and private industry will provide essential knowledge needed to plan for, procure and manage design-build for water and wastewater infrastructure projects.

Session topics

- Organization Preparation—Deciding to Use Collaborative Delivery
- Principles of Collaborative Delivery
- Apportioning Risk—Guiding Principles
- Contract Fundamentals: Liability, Warranty and Commercial Concepts
- The Procurement Process
- Implementation, Project Management and Transition

Attendees participate in experiential exercises to apply lessons learned to real life projects.

Program Materials

- Participants each receive (and use during the session) the 4th Edition of the Water and Wastewater Design-Build Handbook and additional handout materials.
- A pre-session questionnaire is used to guide the session and achieve participant learning objectives.
- A CEU certificate is issued to attendees who complete a short 10-question multiple-choice test.

Session Instructors: Experienced practitioners provide first-hand knowledge of effectively accomplishing design-build water infrastructure projects.

Registration Fee: \$75.00 (includes morning and afternoon refreshments and lunch)
