

OPUS in FOCUS

A Closer Look at the Opus Group

The Opus Group has been steadily building back its presence in the St. Louis and Kansas City markets since re-establishing a St. Louis office in 2012. Together, the St. Louis and Kansas City offices work collaboratively as a Missouri team to develop and design-build highly visible and investment-grade real estate assets. This program will take a closer look at Opus, how the company is structured, and why they use this contract delivery method to pursue some of the toughest sites to develop. A case study featuring the Opus process for design-build will also be presented.

THE ESSENTIALS
