Omaha Riverfront Redevelopment

HDR

The ongoing Riverfront Revitalization project is the redevelopment of the Gene Leahy Mall, Heartland of America Park, and Lewis and Clark Landing in downtown Omaha. This project provides for the construction of new park facilities including buildings, recreational elements, play elements, art features, water features, landscaping, and other elements within each of the parks. 13th Street and 8th Street were also reconstructed, and numerous existing utilities were relocated as needed to facilitate the project.
