

Buck O'Neil Bridge: Leveraging the Design-Build Process for a Successful Project

THE ESSENTIALS

August 9, 2023

7:30 – 9 a.m.

Grand Street Café

4740 Grand Ave

Kansas City, MO 64112

REGISTER HERE

COST

DBIA Members – \$30

Non-Members / Guests – \$45

Students/Faculty & Owners – Free

Breakfast Provided

Kansas City's most significant infrastructure project in a decade, the new Buck O'Neil Bridge Project will replace the aging existing structure with two new river bridges and a series of approaches and land structures. The project will improve regional and local system performance, most notably by providing a new, direct connection from I-35 to US-169 prior to the Missouri River crossing. Built by Massman-Clarkson, a Joint Venture, with design by HNTB, the project is more than halfway complete and scheduled to open in late 2024.
