### “Elevation” project and future projects to come!

Kevin Bryant, Founder of Kingsway Development and a leader of Community and Building Development in the Kingsway/Central West End corridor, will discuss current and future projects as he has retained Master Development rights for 207 acres of the Kingsway District and is overseeing the multi-million-dollar business and community development project in St. Louis’ Central West End. He is well-positioned to drive economic development in the district through a core focus on revitalizing vacant/underutilized properties.
